Every city also has an English version on its own page. Stitch counts and minutes are for first-timers at about 6 crosses a minute.

How to make one cross • الغرزة

1. Come up at **1**, go down at **2**. That is half a cross.
2. Come up at **3**, go down at **4**. The top stitch always leans the same way.
3. For a row of the same colour, stitch all the first halves along the row, then come back doing all the second halves. It is almost twice as fast.
4. No knots: hold a 2 cm tail at the back and catch it under your first few stitches.
5. To finish, slide the needle under 4 or 5 stitches at the back and trim.

The 15 minutes • الوقت

0 to 2	Pick a design, fabric already in the hoop, needle already threaded.
2 to 3	Find the centre: fold the fabric in half both ways, or count 25 squares in from the edge.
3 to 13	Stitch. Start at the red arrows and work outwards.
13 to 15	Finish the thread at the back, trim, tighten the hoop, done.

Running late? Stitch half crosses only (step 1). The picture still reads and it takes half the time.

Per person • مشارك

- **Hoop** 5 cm inner diameter (wood or plastic).
- **Fabric** 1 mm grid (25 to 28 count), a 9 × 9 cm square. The extra 2 cm each side lets the hoop grip.
- **Thread** DMC stranded cotton, 2 strands, 40 cm per colour. Use 1 strand if the holes feel crowded.
- **Needle** tapestry (blunt) size 26 or 28, pre-threaded.
- **Pattern** this sheet, one page per design.
- **Optional** felt circle and glue to close the back.

Before the doors open • التحضير

- Mount every fabric square in its hoop, drum tight.
- Pre-cut 40 cm lengths and pre-thread needles, sorted by colour.
- Print one pattern page per table per design, or print the menu page large at the entrance.
- Keep a magnifier and a good lamp on each table. 1 mm squares are small.
